GENERAL:

- Hunting of certain species subject to the availability of permits and licenses as regulated by the South African Department of Nature Conservation and the respective provincial regulators.
- It is important to note that certain species are listed under CITES (Convention in the Trade of Endangered Species and Wildlife). This means that for certain animals you will have to apply to your own authorities and at your own cost for the import permit into your country of domicile, prior to your Safari. Due to the ever-changing status of Africa's wildlife, it is advisable that one should check regularly to ensure that you are aware of these changes. For the ordinary hunt, CITES animals include Leopard, Rhino and Elephant. For more information, please refer to the CITES website at <http://www.cites.org>
